

MICRO-TOUCH[®] E.P.

Performance Series

Latex, powder-free, examination glove with an extended cuff and thicker formulation for extra protection

This non-sterile glove is ideal for healthcare providers in higher-risk clinical settings who require additional barrier protection. Ansell's natural rubber latex formulation provides a comfortable, well-fitting glove. Manufactured on hand-specific, ergonomically-designed formers, healthcare professionals experience enhanced comfort and fit.

KEY FEATURES AND BENEFITS:

- Excellent elasticity and memory for a secure, comfortable fit
- Thicker cuff for added protection
- Textured surface provides extra protection for sure handling of materials and instruments in wet and dry conditions
- Extended 12" reinforced cuff

Caution: This product contains natural rubber latex which may cause allergic reactions including anaphylactic responses.

Recommended For

- Extra protection over the wrist and arm
- Extra comfort during long, sustained procedures
- Sustained, high-risk examination procedures

MICRO-TOUCH[®] Everyday, Everywhere Protection

MICRO-TOUCH[®] premium medical examination gloves are scientifically designed to complement every need of medical professionals. Sophisticated design features include Ansell ergonomic technologies that ensure comfort during extended procedures, wet grip innovations that prevent harmful mishandling, and micro-thin films for maximum sensitivity. Caregivers who are fully prepared and comfortably protected by versatile MICRO-TOUCH styles have the peace of mind to focus on what matters most: the health and protection of themselves and their patients.
